Apple had to fix the 2020 MacBook Air and it's fixed The keyboard is hardly the only issue Apple has created for itself in that time, but it's arguably the worst.. It didn't work out and Apple took way too long to remedy the issues, but kudos for the attempt.. 11ac Wi-Fi and Bluetooth 5.0 Battery: 49.9Whr Lithium-polymer battery Charger: 30W AC Adapter, USB-C Weight: 2.. Though competition from Windows machines like the HP Spectre x360, Dell XPS 13, and Apple's own MacBook Pro is undeniable, for many people their laptop-buying search should begin and end with the Air once again. Instead of improving on a winning formula in the Air, it seems like Apple just got bored.. Even when it was clear the Air only needed a few minor tweaks—slimmer bezels, a better screen, faster processors—Apple let it rot on the vine..
